- Complete in-house repair and refurbishing expertise
- Ability to offer off-site machining, repair and assembly services

**ISO 9001: 2008  
Certification**

## Right Machine Industrial

is a family-run enterprise with origins dating back to 1944. Formerly Wright's Machine, the firm has evolved into an integrated specialist with proven design,

machining, fabrication and production expertise. Strategically located near the US border in St. Catharines Ontario, the

company's clients come from across Canada and the northern USA. Those products and services, in turn, span the globe. Right is committed to performance excellence and adheres to the highest international quality control standards.

The company remains firmly focused on helping their many valued clients to achieve their ongoing business objectives. Long renowned for their proprietary fair-pricing model, Right is geared to enhancing each client's bottom line.
